Background

Meridian Health Systems received a demand from former Senior Billing Analyst Maria Lopez alleging retaliation. Lopez says she was terminated after reporting duplicate outpatient billing entries to Compliance.

Timeline

Lopez submitted a written compliance complaint on February 14, 2025. Her manager placed her on a performance improvement plan on March 17. Meridian terminated her employment on April 28, 2025.

Client Position

Meridian states that performance concerns predated the complaint, but current HR records must be reviewed to determine whether those concerns were documented contemporaneously.
