

Internal Investigation Notes

Matter HC-2025-0198 | Meridian Health Systems

Matter ID	HC-2025-0198
Client	Meridian Health Systems
Date	2025-03-05
Document Type	investigation_notes
Author/Source	Meridian Compliance
Confidentiality	confidential

Findings

Compliance confirmed that 22 of the 37 encounters identified by Lopez contained duplicate billing entries caused by a batch-processing configuration error. The duplicates were reversed before final collection on 18 encounters; four had already generated patient statements.

Intent

No evidence of intentional fraudulent billing was found. IT corrected the batch configuration on February 28.

Reporter

The notes identify Maria Lopez as the employee who first reported the issue.
